

2008 Annual Meeting

**NORTH CAROLINA SOCIETY OF ORAL & MAXILLOFACIAL SURGEONS
GROVE PARK INN - ASHEVILLE, NC - OCTOBER 10 - 12**

A *nesthesia Changes and Challenges: Risks and Bad Judgments*

by Dr. Robert Campbell

Dr. Robert Campbell

Dr. Robert Campbell is an Emeritus Professor of both oral and maxillofacial surgery and anesthesiology. After over 30 years of full time academics at the University of North Carolina (4 years) and the Medical College of Virginia (28 years), during which he wrote over 200 manuscripts, book chapters, symposia, abstracts and editorials. He is presently in private practice with Virginia Dental and Anesthesia Associates in Richmond Virginia doing both office surgery and anesthesia.

Dr. Campbell is past president of the American Dental Society of Anesthesiology and immediate past editor of the ADSA newsletter, ***the Pulse***. Presently Dr. Campbell is the president of the Virginia Dental Society of Anesthesiology. Dr. Campbell adds, "after all of my years of training and experience, contrary to some beliefs, I am not 100 years old!"

Since all anesthesia care providers sooner or later get into "trouble", the question is, do they know how to get out of trouble safely? Or, is dialing 911 the only solution? Several video tapes including pediatric intramuscular, inhalation and intravenous techniques as well as the use of the LMA in children and adults will be presented. Have you ever seen airway obstruction or a laryngospasm on video? Dr. Campbell will discuss and demonstrate (on video) how to deal with these problems as well as obese patients, how and when to administer muscle relaxants and vasopressors, and the general application of principles of medicine specific for the practice of anesthesia in the office.

Agenda

Friday, October 10, 2008

- 6:30 pm Registration Open
